

JCAM in First Four Months of 2013

JCAM 2013 Yılının İlk Dört Ayında

Yılının İlk Dört Ayında / First Four Months

Mürüvvet Seda Balaban¹, Orhan Yücel²

¹Hacettepe University Faculty of Medicine, Department of Internal Medicine, ²Thoracic Surgery, GÜlhane Military Medical Academy, Ankara, Turkey

We started working for establishment of “Journal of Clinical and Analytical Medicine” one of the international journals of Derman Medical Publishing, by 2007. By time the first issue was published in January 2010. By now we are publishing six issues every year and the journal is one of the journals that grow fast in our country. We all try our best while publishing the journal. We try to act by devotion in order to meet the expectations of our readers, authors and peer-reviewers. There have been approximately 11.000 active users of JCAM since May 2013. 1.883 articles have been sent to our secretary for publishing by April 2013. We expect over 5.000 articles sent to our secretary yearly, if our application for SCI-E in 2013 results in a positive manner.

While evaluating the journals, our basic principle objectivity is always taken into account. Highly sensitive attention is paid in these ethical issues. As a proof of our objectivity, we pay attention to elect peer-reviewers not only the ones that we define but also the ones at least one of them is recommended by the author. Rejection cause of the article which is not seen as eligible for publishing is stated clearly to its author. The information about the author, peer reviewer and responsible editor is kept private while evaluating the article.

When we look the data of ‘Turkish Citation Index’ which cite the medical journals in our country; we see the JCAM of Derman Medical Publishing as the most visited international peer-reviewed journal in the first four months of 2013. Derman Medical Publishing presented the articles belonging to three issues of JCAM and one issue of The Annals of Eurasian Medicine in the first four months of 2013 to their readers by printing the journals in a timely manner [1-61]. We wish to meet again with new projects and studies by following days.

Derman Tıbbi Yayıncılığın uluslararası dergilerinden “Journal of Clinical and Analytical Medicine” (JCAM) dergisine 2007 yılında kurulması için çalışmaları başlattık. Takip eden süreçte ilk olarak 2010 yılı Ocak sayısı basıldı. Hali hazırda yılda altı sayı çıkan ve ülkemizin en hızlı büyüyen dergileri arasındaız. Derginin basım aşamasında çok ciddi gayret gösteriyoruz. Okur, yazar ve hakemlerimizin bekłtilerine cevap verecek nitelikte dergi çıkarmak için hiçbir fedakârlıktan geri durmamaktayız. JCAM’ın Mayıs 2013 itibarıyle 11.000 civarında aktif kullanıcısı bulunmaktadır. Nisan 2013 itibarıyle dergi sekretaryamıza 1.883 makale yayınlanması dileğiyle ulaştı. Dergimizin 2013 yılı SCI-E başvurusunun olumlu sonuçlanması durumunda sekretaryaya gelecek yıllık makale sayısının 5.000 üzerinde olması öngörmektedir.

Dergimizde yayınlanan makaleler değerlendirmeye alınırken, tarafsızlık ilkesi her zaman göz önünde bulundurulmaktadır. Bu tip etik konularda hata yapmamak için maksimum dikkat gösterilmektedir. Tarafsızlığımızın göstergesi olarak, hakem atamalarında sadece kendi tespit ettiğimiz değil yazarın öneriliği doğrultusunda da en az bir kişi atanmasına dikkat gösterilmektedir. Basımı uygun görülmeyen makalelerde ise red gereklisi açık şekilde yazara bildirilmektedir. Yazar, hakem ve sorumlu editör bilgileri makalenin değerlendirme aşamasında gizli tutulmaktadır.

Ülkemizde tip alanında ki dergileri indeksleyen Türkiye Atıf Dizininin verilerine göre Derman Tıbbi Yayıncılık’ın sahibi olduğu JCAM 2013 yılının ilk dört ayında en çok ziyaret edilen uluslararası hakemli tip dergisidir. Derman Tıbbi Yayıncılık 2013 yılının ilk dört ayında JCAM dergisine ait üç sayıya ve The Annals of Eurasian Medicine dergisine ait bir sayıya ait makaleleri zamanında baskısını yapıp okuyucularına sundu [1-61]. Önümüzdeki günlerde yeni proje ve çalışmalarla buluşmak dileği ile...
